Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

SEQUENCE NON-COMPLIANCE

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2).

Description of drawings do not have SEQ ID listed with the sequences. For example, the sequences in Figure 3 must be referred to by their sequence identifiers as required by 37 CFR 1.821.

If the sequences appearing in the specification do not have sequence ID numbers assigned to them, then an amendment to the sequence listing will be required as well. There must not be any new matter submitted, therefore it is important to be careful to include only the sequences that are already disclosed in the current specification. Failure to correct the deficiency will be held a non-responsive to this Office action.

Also, it is noted that SEQ ID NO: 32 inserted on page 8 (response of July 22, 2008, amendment to specification) refers to FFXLLPPH, which appears to be incorrect. The correct sequence for SEQ ID NO: 32 is FFXLLPII. See sequence listing. Appropriate correction is required.
